

ELECTIVE HOME EDUCATION (EHE)

A Guide for Parents/Carers

We provide a bespoke package of first-wave teaching, enrichment programmes and personalised intervention to ensure students in our care achieve to the best of their ability, thereby providing them with improved life-chances as they enter future employment or further education.

We are concerned that if parents choose to remove children from the academy to electively home educating them it is unlikely they will have access to the up-to-date educational developments and the child may not achieve the results of which they are capable.

We strongly discourage EHE.
